Introduction

The project involved the Analysis of several datasets to see whether we can help and enable the CEO of the newly established Microsoft Studio on why, how and where he should allocate resources as well as where to start the studio's effort towards a successful integration of the studio in the market and most importantly onto profitability.

Content

The repository contains

- (i) The README.md file,
- (ii) The studentPythonNotebook.ipynb,
- (iii) The PowerPointPresentaion.pdf,
- (iv) The Presentation Video,
- (v) Supporting datasets for inspection (see zippedData),
- (vi) The finalDataframe composed after EDA and DataCleaning.

Thank you!
